PORCH ENCLOSURES

in lovely decorator colors!

RUSCO'S FULVUE *Triple-Ventilating* **PORCH ENCLOSURE**
offers complete filtered-screen ventilation control!

With this Rusco Porch Enclosure—you control the weather! From top-to-bottom, each glass panel—in each 3-light window—glides smoothly *up or down* on its own full-length “cushioned-in-felt” track.

Ideal for *any* type of enclosure! It permits a true feeling of “indoor-outdoor” living *plus* a maximum amount

of protection against the elements.

Adaptable to any new or old construction project—this Rusco model is made of *triple-protected* hot-dipped, tubular, galvanized steel and finish-painted in lovely “decorator colors”!

RUSCO'S *Horizontal-Slide* WINDOW PORCH ENCLOSURE

offers picture window beauty plus real ventilation control!

Styled for contemporary or traditional buildings—this is an ideal window treatment where you want to transform a porch or veranda into one of the most practical year 'round "living areas" in the home! The Horizontal Slide, hot-dipped, tubular, galvanized steel window lends itself to almost any enclosure treatment.

You achieve the beauty of a fixed picture window—without sacrificing the importance of controlled Fiberglas filtered-screen ventilation!

In most cases, the existing structural characteristics of the original veranda or porch can be retained as the basis for the *new* "family room". This further reduces the cost of adding an *extra* room!

RUSCO'S *Vertical-Slide* PORCH ENCLOSURE

creates a "wall-of-glass" feeling for that extra room!

These vertical slide windows make it possible to arrange an almost unlimited amount of ventilation—with Rusco's famous Fiberglas screen that *filters out* tiny particles of dust and dirt that pass right through *ordinary* screens!

Easy to operate—they raise or lower at the touch of a finger—click smoothly into place for a wide variety of ventilating positions—or lock with Rusco's positive spring-bolt lock!

Made of hot-dipped, tubular, galvanized steel and Triple Protected against the weather with Rusco's bonderized and finish-painted, silky-smooth surface! There's a wide choice of attractive "decorator colors" to choose from.

Check— these RUSCO plus features!

- ☐ Fully weatherstripped with top-quality, waterproofed felt.
 - ☐ Sliding glass panels are removable, *from the inside* for easy, safe cleaning.
 - ☐ Every Rusco Window has its own Fiberglas Screen.
 - ☐ *Made of hot-dipped, tubular, galvanized steel.
 - ☐ Finish-painted in a wide range of "decorator colors" baked on in long-lasting outdoor-type enamel.
 - ☐ Available with Insulating Sash, an optional feature, which gives you Rusco's famous MagicPanel® year 'round, rainproof, draft-free, filtered-screen ventilation control.
 - ☐ Effortless operation! Moving glass panels operate on a "cushion of felt"!
 - ☐ Complete range of sizes and styles to fit any building requirement.
- *Also available in sturdy, silky-smooth extruded aluminum.

Free Estimates— and easy terms to suit your budget!
